

DIRECTED ELECTIVE 2: SECTORS & METHODS

Fall 2013 Approved Courses

The intent of this directed elective is to train students in the specific issues and skills that are associated with different domains of poverty analysis and poverty alleviation. Such knowledge is an integral component of both the theoretical understanding of poverty and of the ability to act in the domain of international development. Here 'practice' is not simply the field experience but rather an analytical capacity to grapple with complex global problems in innovative ways.
